The 5-in-1 Autonomous Work System Pack

Five copy-paste Claude systems for research, email, spreadsheets, meetings and content.

5 reusable systems · No-Code · Claude · Google Sheets · Gmail · Claude Systems · No-Code Automation

Setup checklist

- [ ] Open Claude (claude.ai) and start a new chat, or create a Project called "Work Systems".
- [ ] Copy one prompt from this guide and replace every [VARIABLE] with your own details.
- [ ] Paste your raw material (sources, email, data, transcript or content) where the prompt says [PASTE ...].
- [ ] Save the prompts you use weekly in the Project's instructions so they are one click away next time.

The 5 copy-paste prompts

[INDIGO] = fill in · **[AMBER]** = paste your material

1 Deep Research Synthesizer

Turn a pile of articles, reports or notes into findings you can act on.

```
You are a senior research analyst. I am researching [TOPIC] so I can
decide [DECISION I NEED TO MAKE].
I will paste [NUMBER] sources below, separated by ---.

Work in this order:
1. For each source: a 2-line summary, the author's main claim, and
credibility (high / medium / low) with one reason.
2. Merge everything into the 5 most important findings. Label each
Consensus, Contested or Single-source.
3. List every contradiction between sources and what evidence would
resolve it.
4. Tell me what is missing: the 3 most important questions these sources
do not answer.
5. Finish with a 3-sentence recommendation for [DECISION I NEED TO MAKE],
your confidence from 0 to 100%, and what would change your mind.

Rules: quote numbers exactly as they appear in the sources, never invent
statistics, and write "not in sources" when something is not covered.

Sources:
[PASTE SOURCES]
```

2 Executive Email & Negotiation Drafter

Reply to hard emails (clients, bosses, vendors, recruiters) in minutes, with a clear ask.

```
You are my chief of staff and an experienced negotiator. Draft a reply to
the email below.

My goal: [WHAT I WANT TO HAPPEN]
My walk-away point: [MY LIMIT]
Who they are: [CLIENT / BOSS / VENDOR / RECRUITER]
Tone: [WARM / FIRM / NEUTRAL]

Write 3 versions:
A) Short: under 80 words.
B) Standard: under 150 words.
C) Negotiation: under 150 words, anchors high and offers exactly one
trade-off.

For each version give a subject line, the email, and one sentence
explaining the psychology behind it.
Then list the 2 objections they are most likely to raise, with a one-line
response to each.

Rules: no filler openers such as "I hope this finds you well", one clear
ask per email, and end with a specific next step and date.

Email I received:
[PASTE EMAIL]
```

3 Spreadsheet & Data Cleaner

Fix messy exports (blanks, duplicates, mixed dates) and get the insights in plain English.

```
You are a data analyst who specialises in cleaning messy spreadsheets.
Below is data copied from [EXCEL / GOOGLE SHEETS / CSV EXPORT].
What the data is for: [PURPOSE, e.g. monthly sales report]

Do this:
1. Detect the columns. For each one, state its data type and every problem
you see: blanks, duplicates, mixed formats, typos, outliers.
2. Return the cleaned table as CSV in a code block: dates as YYYY-MM-DD,
trimmed text, consistent capitalisation, duplicates removed, units in the
header.
3. Show a change log table: row, column, before, after, reason.
4. Give me 3 [GOOGLE SHEETS / EXCEL] formulas or validation rules that
would prevent these problems next time.
5. Summarise the 3 most useful insights in plain English, with the exact
numbers.

Rules: never delete a row without listing it in the change log, and flag
anything you are unsure about instead of guessing.

Data:
[PASTE DATA]
```

4 Meeting-to-Action-Plan Converter

Turn a raw transcript into decisions, owners, deadlines and a follow-up email.

```
You are an operations lead who turns messy meetings into clear plans.
Below is a transcript or notes from [MEETING NAME] on [DATE] with
[ATTENDEES].

Produce:
1. A 3-sentence summary a busy executive can read in 15 seconds.
2. Decisions made, as a table: Decision | Who decided | Why.
3. Action items, as a table: Task | Owner | Deadline | Priority (High /
Med / Low). If no deadline was mentioned, propose one and mark it "
(proposed)".
4. Open questions and risks nobody resolved, each with a suggested owner.
5. A ready-to-send follow-up email to all attendees that includes the
action table.

Rules: only assign owners who were actually mentioned, quote numbers and
dates exactly, and write "unclear" rather than guessing.

Transcript:
[PASTE TRANSCRIPT]
```

5 7-Day Content Multiplier

Turn one blog, video or idea into a full week of posts in your own voice.

```
You are a content strategist for [MY NICHE] creators. My audience is [WHO THEY ARE] and they struggle with [THEIR PROBLEM].
Here is one piece of content I already made:
[PASTE BLOG / VIDEO TRANSCRIPT / NOTES]

Turn it into 7 days of content:
Day 1: an Instagram Reel script (hook in the first 2 seconds, about 30 seconds long, on-screen text in [brackets]).
Day 2: a 7-slide carousel, copy for each slide.
Day 3: a LinkedIn post under 200 words: one story, one lesson.
Day 4: a 6-post Threads / X thread.
Day 5: a newsletter section under 250 words.
Day 6: a Stories sequence with one poll and one question sticker.
Day 7: a second Reel that answers the comment Day 1 is most likely to get.

For every day give 3 hook options and one call to action. Keep my voice: [3 WORDS THAT DESCRIBE MY TONE]. Maximum 3 hashtags per post.
```

Tools

Claude	Runs every prompt in this pack. Projects keep your best prompts reusable.
Google Sheets	Paste the cleaned CSV from System 3 straight in.
Gmail	Use System 2's drafts as replies; keep the subject lines.

Pro tips

- Give Claude the real material. A pasted transcript beats a summary of a transcript every time.
- Ask for tables when you need to act, and prose when you need to persuade.
- If an answer is off, reply with what is wrong instead of starting over; Claude keeps the context.
- Never paste passwords, client secrets or personal data you are not allowed to share.

Free resource from @futureintelligence.global. Prompts are ready to use; check AI output before you send or act on it.
